

DK6 Protective Seal Covers

TransTel offers protective rubberized seal covers for both DK6-18D and DK6-36D model telephone sets.

These covers are ideal for work environments like Pizza Shops, machine shops or any environment that produces a lot of dirt or dust and you want to keep the telephone sets clean and functional.

The protective seals are custom molded to fit the telephone sets to cover all the keys and also the LCD display. There is a peel off adhesive around the perimeter of the seal to assure a snug fit to the telephone set.

Order Numbers: DK6-18PS / DK6-36PS

DK6-18D Protective Seal

DK6-36D Protective Seal
